Electricity Rates Effective May 1, 2020

All rates are approved by the Ontario Energy Board (OEB). Flat rates are prorated per 30 days.
Temporary lower service charge and distribution volumetric charges in effect.

In the event of an outage please call 905-468-4235
and look for #notlhydro on Twitter for updates.

Monthly Rates and Charges	Residential	General Service less than 50kW	General Service greater than 50kW	General Service >50kW, Interval	General Service >5,000kW, Interval	Unmetered Scattered Load	Street Lighting
Electric Commodity	Time-of-use rates are set by the OEB. During the COVID pandemic, they have changed frequently. Please visit OEB.ca for updates.		These customers pay either weighted average hourly prices, a contracted price from a retailer or spot market prices for those with interval meters. In some cases a customer in one of these classes will qualify for Time-of-Use or Tiered RPP (regulated price plan) pricing. NOTL Hydro charges the final Global Adjustment calculation for applicable customers.
